Collecting "Operation Christmas Child" Shoeboxes Now thru November 10.

Creativity-- we appreciate it in art and in our children. But most of us get super cautious of being creative with recipes. After all, you want your food to taste right and look right. But there is one food category where creativity can run unchecked--when you're making snack mixes. When I was growing up, only one snack mix was served--Chex Mix. Nowadays, you can find an endless array of snack mix recipes. That's creativity, but why not be even more creative and make your own recipe? It's as simple as starting with what you enjoy eating. Even more creative--make snack mixes all year round. Who says they're to be eaten only at the holidays?
